

If you're reading this group, you have something in common with most of humanity. We all want life to go smoothly and to feel like we have some control over the way things play out. There is nothing more natural than that. Our universe and all of life has an inherent order and structure to it, it follows predictable patterns that we can follow. That is especially true for the planets and stars that orbit and revolve through space in pattern year after year. An understanding of astrological magick allows you to use the order of the cosmos to take destiny into your own hands and use planetary influences to create your own fate. Sounds good, right?

Whether or not we choose to acknowledge it we exist as part of a whole system. The movements of the cosmos around us do affect us, and entire civilizations as well. Taking time to learn about astrology and its place in your magickal practice can help you find your place in the greater natural flow. And when you are no longer fighting the flow, everything is effortless.

The planets also influence psychological forces inside of us, just as the moon controls the tide of the oceans. In ancient Greece, the Sun, Moon, Mercury, Venus, Mars, Jupiter, and Saturn were the only recognized planets that could be seen from earth. Astrologers regard those seven planets as the ones with the most immediate impact on the individual. The outer planets move slower, so their influences only change after longer periods of time and affect entire generations.

There are twelve signs and ten planets used in modern astrology. Planets travel at different speeds around the Sun, and it takes twenty five thousand years for all of them to align the same way again. Consequently, the charts used in astrology and astrological magick will always be unique. Certain situations are more likely to happen in certain planetary alignments, in accordance with natural flow and change. The astrologers job is to find the correct time and place for their magick to produce the desired outcome. Patience can be required to wait for the necessary planetary conditions. Everything we see in an astrological chart is not fated to happen. Once we are aware of our situation we can take action and make choices. This can be done through a ritual, lighting a candle, or casting a spell. It

could also be simply making different decisions that will have better outcomes.

This requires you to believe in magick. If you don't believe, please take a moment and suspend your disbelief before reading on. Common sense tells us not to believe in things without evidence. We develop our beliefs from what we are taught and the world around us. We take for granted that our perception of reality, our lives, other people, and ourselves is incredibly subjective. There is more wiggle room, or grey areas, in life than we realize where it is more than possible to effect change in unconventional ways. Unless you believe in magick you may never see it.

For magick to work, you need to believe in two things. That the spell is possible, and that you can do magick. If you go into the ritual with the thought that it might not work, nothing will happen. People new to magic often fail when casting spells because of their own doubts about magick. The reason this is is because magick is an act of will, of utilizing your will to create change of some kind. In the moment of the magickal working, or spell, you need to be able to focus all your mental energy and will upon the object of your spell. If you have doubts, they will only serve to distract you. If you are skeptical, you will not throw the full force of your will into the work. This is why it matters to examine any fears or doubts you have beforehand.

Some other important considerations before we continue:

* A journal is a must. Write in detail about what you want to accomplish, along with the date and time of your ritual. This is not only to be able to look back on a record of your magic, it also increases the energy of the spell as you put it out into the universe.

* The power of magick is not 100% ours and is not 100% the positions of the stars either. This means we have to take action once the ritual is finished and the stars have aligned. Don't

sit on your butt waiting for results to roll in- make your life happen!

* Successful magick will work in a way that can seem like coincidence. By putting ourselves into situations where our desired outcome can occur we can take advantage of this.

Is Astrology Real?

The Sun controls the seasons and provides energy for life on Earth. The Moon causes the ocean tides, and helps us sleep at night. Still, science believes astrology has no influence on our lives. Science however, has never found consciousness. Consciousness runs through the nerves in our bodies like electric cables. In the same way, the planets in astrology are networked together by light, and consciousness rides this network like a spiritual highway.

I would like to begin by sharing a few resources that will be useful when reading this book.

The best free astrology software I've found is called Zodiac, and runs for Windows and Linux.
(<https://github.com/atten/zodiac>)

Another free tool that runs on Windows, Mac, and Linux. It's called Stellarium. It lets you examine the cosmos in real time from your location as if you were in a planetarium.
(<https://www.stellarium.org>)

Astrology is a wonderful thing to incorporate into your personal magick. The energy of the cosmos is a powerful thing. However, don't let yourself feel hung-up by the specific times that the Signs are in the right place for your working. If you really need to cast something, don't wait for the perfect moment.

That being said- please take the time to really think about the energy you are calling on and how it will affect you and what

you're using it for. It is easy to misuse and get a different result than you wanted. However, it is also fairly easy to remedy.

The following charts and descriptions are provided for you to reference and build your own spells. There are also spells provided for you later in this section that can be incorporated in your workings as you choose. Also, I will be discussing Signs, Planets, and Houses, but do not feel like it is necessary to incorporate all of those aspects. Again, if you are specific about the energies you are inviting into your work, you shouldn't run into any issues.

A consideration when tapping into Astrological Energy for spell or ritual is what Planets are in the Astrological Sign you wish to use. The Signs are constellations made of stars that are always moving throughout the year as well as the Planets. When a Planet is in alignment with a Sign, the planet is said to be "in" that Sign. There is a third element to be considered in using this type of energy. The sky is divided into what are called "Houses". Each house is related to a specific Sign and shares the same qualities of that Sign- for example the first House shares qualities of Aries, the second shares qualities of Taurus, etc. When reading one's birth chart the houses are described as representing specific areas of our lives. For example having Gemini in your first House means that your outward personality would be seen by others as fun, witty, and gregarious. This makes Houses an excellent aspect to use in spellwork. Planets move through all of the Houses as the year goes on, so it provides many interesting opportunities for working magick.

So, ideally, you would cast spells when planets and signs were aligned into the House that worked best for the spell you are casting. If needed you may decide to wait until the Signs and Planets would bring the influence you desire. What I find a bit more practical is to note (Using a computer) where the Signs and Planets will be in relation to each other in the next few weeks or even up to the next year- and then consider if there are any workings I would like to perform that would be harmonious with those alignments. I find that planning my magick that way also gives me a Sense of being in tune with the Universe and following its flow. Do what works for you- if it pleases you to meticulously plan and wait, then do it. Be yourself.

Notes on the Planets

Sun

The Sun is connected to the conscious mind, and to truth, beauty, goodness, joy, life, and healing. Its powerful energy can be used to clear away any negative energy, and to illuminate anything that seems obscured (people who are lying, lack of clarity within oneself, apparent lack of options in life, etc) so that the truth is revealed. It can cast out emotional baggage and toxic influences in your life. It can also be used to improve your personality in numerous ways when combined with any Sign. There is an overall focus on the outer self.

Moon

The Moon is connected to the subconscious, our emotions and their deeper meanings, as well as illusion and intuition. It is inherently watery (and thus connected to emotion), as it pulls on the world tides and far more subtly on our own bodies. It also concerns our deeper instinctual selves. There is an overall focus on the internal self. The phase of the Moon matters. Nuances that each phase gives to Moon energy:

* New Moon: Concerns the subconscious and our shadow self, which includes any and all things we are repressing or denying. The beginning of a new cycle. Our dark, inner core where our intuition and wisdom lies. Good for shadow work, retrieving information lost to the conscious mind, and starting a part of life with a clean slate.

* Waxing Moon: Generally useful for workings meant to increase, create, or invite in the object of one's spell. Refer to the sign the moon is currently in for further nuance.

* Full Moon: Concerns fantasy, illusion, illumination of the subconscious, our dreams, intuition, psychic abilities, and emotions/passions winning out over logic. Instincts prevailing over intellectualism. Metaphors. Good for casting glimmers, dream-work, gentle illumination of one's subconscious (rather than the bright, but perhaps harsh, sun), tapping into one's abilities, and astral travel.

* Waning Moon: Generally useful for workings meant to banish, destroy, weaken, or decrease the object of one's spell. Refer to the sign the moon is currently in for further nuance.

Mercury

Mercury is a quick little planet, and thus is good for getting things done fast. This planet is suited in workings for things such as: outsmarting a rival, turning a situation around quickly, opening or closing communications in any situation (love, friendship, family, business, legal, etc), attracting networking opportunities, and finding clever solutions to resolve any situation you might be faced with so that you end up on top.

Venus

Venus is famous for its association to love and beauty. Naturally this planet is wonderful for helping with one's level of attractiveness to others in numerous ways. It can also attract beautiful things to you, whether that is possessions or people. You can also use Venus to help you become more graceful or talented. To influence people with feminine energy towards you, as well as to invoke feminine energy into yourself for any purpose. To influence any relationship you have.

Mars

Mars helps us find our warrior within. This is an excellent planet for athletes, others engaged in strenuous activities, people in competitive fields, or anyone who strives for excellence through skill and physical exertion. Use Mars to help you build the qualities you need to conquer your goals. Mars helps those who help themselves.

Jupiter

Jupiter is a student's best friend, or anyone who endeavors to learn or better themselves in any way. Jupiter is helpful in spells to bring us good luck, to find spiritual direction, encourage others to be generous towards you, encourage advancement in one's career, and increase your ability to understand any field of study.

Saturn

Saturn is a stern planet, and serious minded. It is a friend for when you wish to influence an authority figure in your life, or to increase one's own presence of authority. It is also useful for influencing masculine people towards you. It is also a useful planet to work with in working through your fears and internal obstacles to your goals, as well as staying motivated until the end.

Uranus

Uranus is the genius. Uranus would be great to instigate sudden and dramatic changes in any situation. Uranus can help with encouraging rebelliousness, independent thinking, and freedom. Need help with some creative inspiration? Uranus can inspire you with unconventional and truly innovative ideas.

Neptune

Neptune stays in each sign for about 14 years at a time, so this could be an opportunity for long workings utilizing it's qualities. Here you can heal self- destructive behaviors, and assist in encouraging qualities of grace, compassion, patience, and spirituality. Use Neptune to change your perceptions of a situation, or to influence the perspective of others. It is also useful to encourage musical and creative gifts.

Pluto

Pluto has a slow and irregular orbit, and can be in a sign from 12 to 22 years roughly, consult resources tracking its predicted movements if you plan on working with this planet. Also, a good planet for long spell work. Pluto brings an intense and transformative energy to all spellwork. It can give us the powerful energies of death followed by resurrection, renewal, and rebirth. It can help us transcend adversity and find our own freedom. Pluto is good for gaining control of a situation, gaining control of your life, and turning yourself around.

Numerology

Numerology deals with the numbers one through ten. All the digits in a number are added together to get one sum. This is repeated until you get to a number between 1 and 10. Each number also represents one of the 10 planets in the solar system (Counting the Sun). Here is a summary of what the numbers themselves mean:

One / Sun

One is a fresh start for you. You will be entering a whole new cycle, filled with optimism and energy. You could literally start anything, and it will become a success. The only problem will be managing all of this energy with all of the things you want to be doing. There are going to be many changes that relate to your job or personal life, but you will be ready for them.

Two / Mercury

All of the high energy will finally be calming down. So the future has the potential to be very easy going. Patience will be important. Racing at high speeds to get things done will not be necessary. You need to be more careful and take your time. If you can't do this you will find yourself getting stressed out.

Three / Venus

I see you are going to be busy having lots of fun and putting work on the back burner. You will still have to manage your time, but you will be focusing on what you want to do rather than what you have to do. It is a great time to meet people and make new friends. Try and find like-minded people who share your interests.

Four / Earth

To be successful will require a lot of work on your part. You are going to be under pressure to get things done, and it will take time to complete your goals. If you don't plan ahead you could get into trouble. This year is going to challenge you, so don't give up.

Five / Mars

There are quite a few surprises waiting for you, and you are ready for them. You have some surprises for the rest of us too. You are going to find lots of excitement, and it's a good time to stop holding back. So do all kinds of new and different things, and stop putting off what you have been planning.

Six / Jupiter

If your relationships are going well they are just going to get closer. If they have been stressful, then you are going to find new beginning. It is important to be understanding of the needs of others, even when you feel that you may not be able to help them.

Seven / Saturn

You could use some time to yourself. It would be wise to learn about whatever interests you. The number seven will bring insight into your life and the world you live in. It isn't the best time for making money, but is a good time for making plans.

Eight / Uranus

This is the best time to start making financial goals. You are going to see money coming back in again, but it will require some work on your part. Don't work too hard and you will have some time for yourself.

Nine / Neptune

Quit thinking about the past, and start making plans for the future. This will be difficult for you because there are so many things you want to do. However, once you decide on what you want, you will know exactly how to get it. It just won't happen immediately.

Ten / Pluto

You're entering a new stage of life where you are more independent. Keep your eyes open for new potential as you work towards your goals. Your determination to succeed is going to be your greatest asset.

This connection can be used as a meditation Using a Chant that is repeated over & over to Create the desired magickal effect

With the chant of one. The spell has begun.

With the chant of two. The magic becomes true.

With the chant of three. All desires come to me.

With the chant of four. Magic opens any door.

With the chant of five. My wishes come alive.

With the chant of six. Whats broken becomes fixed.

With the chant of seven. Blessings fall to me from Heaven.

With the chant of eight. I create my own fate.

With the chant of nine. I will make it become mine.

With the chant of ten. I cast this spell once again.

The following spells are examples, all of which are based on years of experience in casting and getting results. As with all magick exercise due diligence in considering your intention and how all of the items you are using and energies you are calling upon are going to realistically affect that. The key to getting a spell to work is remembering that ultimately magick is about who has the strongest will. If your will is the strongest, then your will will be manifested. If you are casting anything to do with other people in anyway or affecting the world you are contending against the will of all of those people and against the flow of the circumstances as they are currently progressing. Obviously, the more in line with the current flow your working is, the easier it will be to manifest.

Magick moves in the path of least resistance. Spells occur in accordance with the flow of the universe rather than suddenly altering the natural order of space and time. You have to trust the universe to help you. Magic is not instantaneous, and so it can sometimes feel as if nothing is happening. The lack of instantaneous results doesn't mean the magick has failed. Your spells will manifest if you believe in them, but if you are not clear what you want, they can come about in unexpected ways.

Our minds control our reality, but there are limits to what we are able to do with our minds. We can't levitate or walk on water because our unconscious beliefs won't allow this to happen. It is like trying to hold your breath until you pass out or stop your own heartbeat. Religions are built around people who have been able to work such wonders, but that is outside the scope of this book.

To practice astrological magick you don't need to worship anything. Instead, work to advance yourself spiritually on the road to enlightenment. When you move into alignment with the forces of the universe, you are able to create your own destiny. Sometimes this will be miraculous and sometimes you need to be patient. The universe will always provide a sign telling you what to do next.

Below is a list of spells to use when working astrological magick called Cantrips. Raise energy using these spells when planetary alignments are occurring.

These spells can be turned on by tarot cards if you arrange them into intentional spreads. The following are correspondences for the major arcana of the tarot, and the signs and planets of astrology. If you don't want to use tarot you could label candles for astrological purposes.

Two cards are paired together for each of the signs and planets.

Sun / Strength

Sun: The Sun card naturally corresponds with the Sun, the source of energy and enlightenment.

Leo: The Strength card is the master of gentle force and control, is assigned to Leo, the sign of lioness courage and heart.

Moon / Chariot

Moon: The Moon rules the night and is represented by the Moon card.

Cancer: The Chariot card is assigned to Cancer, the sign of motherhood, home, and family life. Cancer's crab carries his home on his back. -

Magician / Lovers

Mercury: The Magician card is assigned to Mercury, the planet of speed and communication. You'll often see him pointing heavenward, conveying messages from the heavens above to the Earth below.

Gemini: The Lovers, who think and speak as one, are assigned to Gemini, the sign of thought and communication. The Lovers themselves are twin souls, with their arms and hearts entwined.

Empress / Hierophant

Venus: The Empress card, wife and mother, is assigned to Venus, the planet of love and attraction. You can find the astrological glyph for Venus in many renditions of the card.

Taurus: The Hierophant card is the keeper of tradition, and is assigned to Taurus, the sign of stability, luxury, and pleasure. Some Hierophant cards feature Taurus glyphs and symbolism.

Tower / Emperor

Mars: The Tower, perpetually guarded and under attack, is assigned to Mars, the planet of energy, war, aggression, and assertiveness. The astrological glyph associated with Mars is a shield and a spear.

Aries: The Emperor card is assigned to Aries, the sign of leadership.

Wheel of Fortune / Temperance

Jupiter: The Wheel of Fortune is assigned to Jupiter, the expansive planet of luck and burgeoning growth.

Sagittarius: Temperance, who straddles a divide between two worlds, is assigned to Sagittarius, the sign of long-distance travel, philosophy, and higher education.

World / Devil

Saturn: The World card is assigned to Saturn, the ringed planet of boundaries, limitations, restrictions, and structure

Capricorn: The Devil, the embodiment of physical and material temptation, is assigned to Capricorn, the sign of business, career success, and worldly status. The mountain-climbing goat associated with the sign bears a striking resemblance to some depictions of the Devil himself.

Fool / Star

Aquarius: The Star, a glimmering light of hope and inspiration, is assigned to Aquarius, the airy sign of social groups and futuristic thinking.

Hanged Man / High Priestess

Neptune: The Hanged Man, suspended in an alternate reality, is assigned to Neptune, the planet of mysticism and illusion. The glyph, King Neptune's trident, symbolizes a watery world that exists alongside our own earthly reality.

Judgement / Death

Pluto: The Judgment card is assigned to Pluto, the planet of death, resurrection, and unavoidable change.

There are twelve gates in astrological magick. The gates work through the planets and signs of astrology. Depending on your sun sign you will have a connection automatically to one of the gates. For example if you were a Leo, you would have a natural connection to the Power and Gate of Predicting. Each Power also connects to one of the Spheres in the Tree of Life. Generally, the Gates are learned in order.

01. Predicting - Wisdom / ESP

Realization - All knowledge is inside us.

Sign: Leo

Planet: Sun

Sephirot: Tiphareth

Choir: Mankind

Angel: Selaphiel

Prayer: Angels of the Sun. A light brighter, there is none.

Predicting is the first Gate a Wizard learns. It comes in the form of inspiration, and insight. Answers and discoveries come without effort. You know things that you can't possibly know. The power of Predicting comes with the understanding of Realization. The knowledge of Realization is that everything you could ever want to know is already inside you.

02. Feeling - Empathy / Telepathy

Association - A link exists between all things.

Sign: Cancer

Planet: Moon

Sephirot: Yesod

Choir: Saints

Angel: Jeremiel

Prayer: Angels of the Moon. I ask my prayers come real soon.

Feeling is the second Gate a wizard can learn. This is a power often had by Saints. Feeling allows you to empathize and understand another person and where they are coming from. It allows you to see inside another person and communicate without saying a word. This power comes from the understanding of Association. Association is the knowledge that a link exists between all living things.

03. Producing - Attraction / Creation

Synchronicity - Everything is related.

Sign: Gemini

Planet: Mercury

Sephirot: Hod

Choir: Angels

Angel: Barachiel

Prayer: Angels of Mercury, in the sky. Give me wings so I may fly.

Producing is the third Gate. It allows a Wizard to attract situations and desires. This power comes from the understanding of Synchronicity, which tells us that everything is related. The power exists inside you to attract anything into your life.

04. Influencing - Charisma / Hypnotism

Possession - Will can control the mind.

Sign: Taurus

Planet: Venus

Sephirot: Netzach

Choir: Archangels

Angel: Gabriel

Prayer: Angels of Venus. Let your light reach between us.

The fourth Gate is called Influencing. Using this power a Wizard can charm another person. The knowledge associated with this power is called Possession. This power will cause people to see the Wizard in a positive light, or allow the wizard to hypnotize and control them. The power of Possession comes from the knowledge that your will can control another mind.

05. Penetrating - Escape / Intangibility

Spiritualism - The world is made from spirit

Sign: Virgo

Planet: Earth

Sephirot: Malkuth

Choir: Principalities

Angel: Zadkiel

Prayer: Angels of the Earth. To all life you give birth.

The fifth Gate is known as Penetrating. It comes from the knowledge of Spiritualism. Spiritualism is the understanding that the world is made from spirit. This allows Wizards to become completely intangible, and for chains and locks to become so loose that they fall apart.

06. Controlling - Energy / Telekinesis

Evocation - Spirit is made from forces.

Sign: Aries

Planet: Mars

Sephirot: Geburah

Choir: Virtues

Angel: Jophiel

Prayer: Angel's of Mars, I cast this spell into the stars.

The sixth Gate is called Controlling. This allows a wizard to summon greater force around themselves. They are able to lift and move things that they should not be able to. The knowledge of this gate is called Evocation. It is the understanding that spirits are forces and can they can effect the world the same as the living.

07. Restoring - Renewal / Healing

Forgiveness - Suffering is caused by sin.

Sign: Sagittarius

Planet: Jupiter

Sephirot: Chesed

Choir: Powers

Angel: Michael

Prayer: I beg the Angels of Jupiter. Make me healthy and make me pure.

The seventh Gate is called Restoring. Restoring will allow a person to be without pain and heal them from disease and illness. It comes from the understanding of Forgiveness. The knowledge of Forgiveness is that all suffering is caused by Sin. And can therefore be relieved.

08. Vanishing - Stealth / Invisibility

Misdirection - Attention can be controlled.

Sign: Capricorn

Planet: Saturn

Sephirot: Binah

Choir: Dominions

Angel: Ariel

Prayer: Angels of Saturn, reveal the great pattern.

The eighth Gate is known as Vanishing. It comes from the knowledge of Misdirection. Misdirection is the ability to control where attention is focused. This is quite useful for keeping secrets or hiding something from another person. With careful study, it is possible to become completely invisible.

09. Traveling - Direction / Teleportation

Unity - All separation is an illusion.

Sign: Aquarius

Planet: Uranus

Sephirot: Tiferet

Choir: Thrones

Angel: Raphael

Prayer: Angel's of Uranus. Without your light, the night is nameless

The ninth Gate is called Traveling. It works under the knowledge that all separation is an illusion. With this power, you can find your way without directions or locate something that is lost. A powerful Wizard can in fact step from one location to anywhere else they desire.

10. Transforming - Developing / Shapeshifting

Personification - We create ourselves.

Sign: Pisces

Planet: Neptune

Sephirot: Keter

Choir: Cherubim

Angel: Raziel

Prayer: I ask the Angel's of Neptune, to bring this life back in tune.

The 10th Gate is called Transforming. Transformation involves taking on the personification of something else, which could be an abstract concept, an animal, or even a God. The Knowledge of personification means that you create yourself. No one else can tell you who you are.

11. Destruction- Curse / Destroy

Pragmatism - Right & wrong do not exist.

Sign: Scorpio

Planet: Pluto

Sephirot: Daath

Choir: Seraphim

Angel: Uriel

Prayer: Dark angel of Pluto, spare me from the grave below.

The 11th Gate is Destruction. This power should almost never be used. The use of it draws people away from their path, and eventually they can't see the difference between right and wrong at all.

12. Revelation - Visions / Rapture

Above as Below. - Gods & Angels need us.

Sign: Libra

Planet: Milky Way

Sephirot: Ein Sof

Choir: God

Angel: Elohim

Prayer: Spirit of the Milky Way, take me where the angels stay.

The 12th Gate is known as Revelation. This is the power wizards use to communicate with spirits, gods or angels. A powerful Wizard can step into spiritual realms and are sometimes never heard from again.

The Orphic Hymns

The Ancient Greeks knew of seven planets that we use today: Mercury, Venus, Mars, Jupiter, Saturn, Earth, Sun, and the Moon.

However, as we discovered more planets we named them after the Greek gods. The Greeks had many poems, and songs that they used for spells and prayers to the same Gods we now see in the Sky.

There is a great book of ancient spells called the Orphic Hymns. Various translations are available for free but I would still recommend this book:

"The Orphic Hymns: A New Translation for the Occult Practitioner"
by Patrick Dunn

I have listed twelve of the Orphic Hymns from a online translation.
These 12 Hymns correspond to astrology, and the planets. The
coolest part about this relic is that they still rhyme in English....

(1) TO THE EARTH [GAIA]

The Fumigation from every kind of Seed, except Beans and Aromatics.
O Goddess, Earth, of Gods and men the source, endu'd with fertile, all
destroying force;

All-parent, bounding, whose prolific pow'rs, produce a store of beauteous
fruits and flow'rs,

All-various maid, th' eternal world's strong base immortal, blessed,
crown'd with ev'ry grace;

From whose wide womb, as from an endless root, fruits, many-form'd,
mature and grateful shoot.

Deep bosom'd, blessed, pleas'd with grassy plains, sweet to the smell, and
with prolific rains.

All flow'ry dæmon, centre of the world, around thy orb, the beauteous
stars are hurl'd

With rapid whirl, eternal and divine, whose frames with matchless skill
and wisdom shine.

Come, blessed Goddess, listen to my pray'r, and make increase of fruits
thy constant care;

With fertile Seasons [Horai] in thy train, draw near, and with propitious
mind thy suppliant hear.

(2) TO THE SUN [HELIOS]

The Fumigation from Frankinsence and Manna.

Hear golden Titan, whose eternal eye with broad survey, illumines all the sky.

Self-born, unwearied in diffusing light, and to all eyes the mirrour of delight:

Lord of the seasons, with thy fiery car and leaping coursers, beaming light from far:

With thy right hand the source of morning light, and with thy left the father of the night.

Agile and vig'rous, venerable Sun, fiery and bright around the heav'ns you run.

Foe to the wicked, but the good man's guide, o'er all his steps propitious you preside:

With various founding, golden lyre, 'tis mine to fill the world with harmony divine.

Father of ages, guide of prosp'rous deeds, the world's commander, borne by lucid steeds,

Immortal Jove [Zeus], all-searching, bearing light, source of existence, pure and fiery bright

Bearer of fruit, almighty lord of years, agil and warm, whom ev'ry pow'r reveres.

Great eye of Nature and the starry skies, doom'd with immortal flames to set and rise

Dispensing justice, lover of the stream, the world's great despot, and o'er all supreme.

Faithful defender, and the eye of right, of steeds the ruler, and of life the light:

With founding whip four fiery steeds you guide, when in the car of day you

glorious ride.

Propitious on these mystic labours shine, and bless thy suppliants with a life divine.

(3) TO THE MOON [SELENE]

The Fumigation from Aromatics.

Hear, Goddess queen, diffusing silver light, bull-horn'd and wand'ring thro' the gloom of Night.

With stars surrounded, and with circuit wide Night's torch extending, thro' the heav'ns you ride:

Female and Male with borrow'd rays you shine, and now full-orb'd, now tending to decline.

Mother of ages, fruit-producing Moon [Mene], whose amber orb makes Night's reflected noon:

Lover of horses, splendid, queen of Night, all-seeing pow'r bedeck'd with starry light.

Lover of vigilance, the foe of strife, in peace rejoicing, and a prudent life:

Fair lamp of Night, its ornament and friend, who giv'st to Nature's works their destin'd end.

Queen of the stars, all-wife Diana hail! Deck'd with a graceful robe and shining veil;

Come, blessed Goddess, prudent, starry, bright, come moony-lamp with chaste and splendid light,

Shine on these sacred rites with prosp'rous rays, and pleas'd accept thy suppliant's mystic praise.

(4) TO MERCURY [HERMES]

The Fumigation from Frankincense.

Hermes, draw near, and to my pray'r incline, angel of Jove [Zeus], and
Maia's son divine;

Studious of contests, ruler of mankind, with heart almighty, and a prudent
mind.

Celestial messenger, of various skill, whose pow'rful arts could watchful
Argus kill:

With winged feet, 'tis thine thro' air to course, O friend of man, and
prophet of discourse:

Great life-supporter, to rejoice is thine, in arts gymnastic, and in fraud
divine:

With pow'r endu'd all language to explain, of care the loos'ner, and the
source of gain.

Whose hand contains of blameless peace the rod, Corucian, blessed,
profitable God;

Of various speech, whose aid in works we find, and in necessities to
mortals kind:

Dire weapon of the tongue, which men revere, be present, Hermes, and thy
suppliant hear;

Assist my works, conclude my life with peace, give graceful speech, and me
memory's increase

(5) TO VENUS [APHRODITE]

A Hymn.

Heav'nly [Ourania], illustrious, laughter-loving queen, sea-born,
night-loving, of an awful mien;

Crafty, from whom necessity [Ananke] first came, producing, nightly,
all-connecting dame:

'Tis thine the world with harmony to join, for all things spring from
thee, O pow'r divine.

The triple Fates [Moirai] are rul'd by thy decree, and all productions
yield alike to thee:

Whate'er the heav'ns, encircling all contain, earth fruit-producing, and
the stormy main,

Thy sway confesses, and obeys thy nod, awful attendant of the brumal God
[Bakkhos]:

Goddess of marriage, charming to the sight, mother of Loves [Eortes], whom
banquetings delight;

Source of persuasion [Peitho], secret, fav'ring queen, illustrious born,
apparent and unseen:

Spousal, lupercal, and to men inclin'd, prolific, most-desir'd,
life-giving., kind:

Great sceptre-bearer of the Gods, 'tis thine, mortals in necessary bands
to join;

And ev'ry tribe of savage monsters dire in magic chains to bind, thro' mad
desire.

Come, Cyprus-born, and to my pray'r incline, whether exalted in the
heav'ns you shine,

Or pleas'd in Syria's temple to preside, or o'er th' Egyptian plains thy
car to guide,

Fashion'd of gold; and near its sacred flood, fertile and fam'd to fix thy

blest abode;

Or if rejoicing in the azure shores, near where the sea with foaming
billows roars,

The circling choirs of mortals, thy delight, or beauteous nymphs, with
eyes cerulean bright,

Pleas'd by the dusty banks renown'd of old, to drive thy rapid, two-yok'd
car of gold;

Or if in Cyprus with thy mother fair, where married females praise thee
ev'ry year,

And beauteous virgins in the chorus join, Adonis pure to sing and thee
divine;

Come, all-attractive to my pray'r inclin'd, for thee, I call, with holy,
reverent mind.

(6) TO MARS [ARES]

The Fumigation from Frankincense.

Magnanimous, unconquer'd, boistrous Mars, in darts rejoicing, and in
bloody wars

Fierce and untam'd, whose mighty pow'r can make the strongest walls from
their foundations shake:

Mortal destroying king, defil'd with gore, pleas'd with war's dreadful and
tumultuous roar:

Thee, human blood, and swords, and spears delight, and the dire ruin of
mad savage fight.

Stay, furious contests, and avenging strife, whose works with woe,
embitter human life;

To lovely Venus [Kypris], and to Bacchus [Lyaaios] yield, to Ceres [Deo]
give the weapons of the field;

Encourage peace, to gentle works inclin'd, and give abundance, with

benignant mind.

(7) TO JUPITER [ZEUS]

The Fumigation from Storax.

O Jove much-honor'd, Jove [Zeus] supremely great, to thee our holy rites
we consecrate,

Our pray'rs and expiations, king divine, for all things round thy head
exalted shine.

The earth is thine, and mountains swelling high, the sea profound, and all
within the sky.

Saturnian [Kronion] king, descending from above, magnanimous, commanding,
sceptred Jove [Zeus];

All-parent, principle and end of all, whose pow'r almighty, shakes this
earthly ball;

Ev'n Nature trembles at thy mighty nod, loud-sounding, arm'd with
light'ning, thund'ring God.

Source of abundance, purifying king, O various-form'd from whom all
natures spring;

Propitious hear my pray'r, give blameless health, with peace divine, and
necessary wealth.

(8) TO SATURN [KRONOS]

The Fumigation from Storax.

Ethereal father, mighty Titan, hear, great fire of Gods and men, whom all
revere:

Endu'd with various council, pure and strong, to whom perfection and
decrease belong.

Consum'd by thee all forms that hourly die, by thee restor'd, their former
place supply;

The world immense in everlasting chains, strong and ineffable thy pow'r contains

Father of vast eternity, divine, O mighty Saturn [Kronos], various speech is thine:

Blossom of earth and of the starry skies, husband of Rhea, and Prometheus wife.

Obstetric Nature, venerable root, from which the various forms of being shoot;

No parts peculiar can thy pow'r enclose, diffus'd thro' all, from which the world arose,

O, best of beings, of a subtle mind, propitious hear to holy pray'rs inclin'd;

The sacred rites benevolent attend, and grant a blameless life, a blessed end.

(9) TO HEAVEN [URANUS]

The Fumigation from Frankincense.

Great Heav'n [Uranus], whose mighty frame no respite knows, father of all, from whom the world arose:

Hear, bounteous parent, source and end of all, forever whirling round this earthly ball;

Abode of Gods, whose guardian pow'r surrounds th' eternal World with ever during bounds;

Whose ample bosom and encircling folds the dire necessity of nature holds.

Ætherial, earthly, whose all-various frame azure and full of forms, no power can tame.

All-seeing Heav'n, progenitor of Time [Kronos], forever blessed, deity sublime,

Propitious on a novel mystic shine, and crown his wishes with a life divine.

(10) TO NEPTUNE [POSEIDON]

The Fumigation from Myrrh

Hear, Neptune [Poseidon], ruler of the sea profound, whose liquid grasp begirts the solid ground;

Who, at the bottom of the stormy main, dark and deep-bosom'd, hold'st thy wat'ry reign;

Thy awful hand the brazen trident bears, and ocean's utmost bound, thy will reverts:

Thee I invoke, whose steeds the foam divide, from whose dark locks the briny waters glide;

Whose voice loud founding thro' the roaring deep, drives all its billows, in a raging heap;

When fiercely riding thro' the boiling sea, thy hoarse command the trembling waves obey.

Earth shaking, dark-hair'd God, the liquid plains (the third division) Fate to thee ordains,

'Tis thine, cærulian dæmon, to survey well pleas'd the monsters of the ocean play,

Confirm earth's basis, and with prosp'rous gales waft ships along, and swell the spacious sails;

Add gentle Peace, and fair-hair'd Health beside, and pour abundance in a blameless tide.

(11) TO PLUTO [PLOUTON]

Pluto, magnanimous, whose realms profound are fix'd beneath the firm and solid ground,

In the Tartarian plains remote from fight, and wrapt forever in the depths of night;

Terrestrial Jove [Zeus Khthonios], thy sacred ear incline, and, pleas'd, accept thy mystic's hymn divine.

Earth's keys to thee, illustrious king belong, its secret gates unlocking, deep and strong.

'Tis thine, abundant annual fruits to bear, for needy mortals are thy constant care.

To thee, great king, Avernus is assign'd, the seat of Gods, and basis of mankind.

Thy throne is fix'd in Hade's dismal plains, distant, unknown to rest, where darkness reigns;

Where, destitute of breath, pale spectres dwell, in endless, dire, inexorable hell;

And in dread Acheron, whose depths obscure, earth's stable roots eternally secure.

O mighty dæmon, whose decision dread, the future fate determines of the dead,

With captive Proserpine [Kore], thro' grassy plains, drawn in a four-yok'd car with loosen'd reins,

Rapt o'er the deep, impell'd by love, you flew 'till Eleusina's city rose to view;

There, in a wond'rous cave obscure and deep, the sacred maid secure from search you keep,

The cave of Atthis, whose wide gates display an entrance to the kingdoms void of day.

Of unapparent works, thou art alone the dispensator, visible and known.

O pow'r all-ruling, holy, honor'd light, thee sacred poets and their hymns
delight:

Propitious to thy mystic's works incline, rejoicing come, for holy rites
are thine.

(12) TO THE STARS [ASTRON]

The Fumigation from Aromatics.

With holy voice I call the stars [Astron] on high, pure sacred lights and
genii of the sky.

Celestial stars, the progeny of Night [Nyx], in whirling circles beaming
far your light,

Refulgent rays around the heav'ns ye throw, eternal fires, the source of
all below.

With flames significant of Fate ye shine, and aptly rule for men a path
divine.

In seven bright zones ye run with wand'ring flames, and heaven and earth
compose your lucid frames:

With course unwearied, pure and fiery bright forever shining thro' the
veil of Night.

Hail twinkling, joyful, ever wakeful fires! Propitious shine on all my
just desires;

These sacred rites regard with conscious rays, and end our works devoted
to your praise.

Another subject of interest I have is the book of Revelations, and my theories of astrology:

The solar system is divided into the 12 signs of the zodiac:

01.  Aries
02.  Taurus
03.  Gemini
04.  Cancer
05.  Leo
06.  Virgo
07.  Libra
08.  Scorpio
09.  Sagittarius
10.  Capricorn
11.  Aquarius
12.  Pisces

There are 10 known bodies in the solar system,
Aside from earth:

01.  Sun
02.  Moon
03.  Mercury
04.  Venus
05.  Mars
06.  Jupiter
07.  Saturn
08.  Uranus
09.  Neptune
10.  Pluto

Add the two together and you get 22.

There are 22 Major Arcana of the Tarot
And there are 22 Letters in Hebrew

By adding one more planet,  Earth
You arrive at the number 23, which is the number
of mans rise into heaven above the angels.

2 divided by 3 equals 0.666

One day we will discover a physical heaven,

Which gives us 12 planets:

01. ☼ Sun
02. 🌙 Moon
03. ☿ Mercury
04. ♀ Venus
05. ⊕ Earth
06. ♂ Mars
07. ♃ Jupiter
08. ♄ Saturn
09. ♅ Uranus
10. ♆ Neptune
11. ♇ Pluto
12. ✨ Heaven

This makes 12 planets and 12 constellations.

$12 \times 12 = 144$, the number of the rapture.

There are also be 12 choirs of Angels:

Choirs

01. God
02. Seraphim
03. Cherubim
04. Thrones
05. Dominions
06. Powers
07. Virtues
08. Principalities
09. Archangels
10. Angels
- * 11. Saints
- * 12. Mankind

And 12 Chief Angels

01. Elohim
2. Uriel
03. Raziel
04. Raphael
05. Ariel
06. Michael
07. Jophiel
08. Zadkiel
09. Gabriel
10. Barachiel
11. Jeremiel
12. Selaphiel

I've been meditating on some obvious questions with this system, and believe I have answered them:

The sign the earth is in, is the opposite of the sign the sun is in. This should be apparent if you look at a astrological map.

But here is a simple table:

Aries <-> Libra
Taurus <-> Scorpio
Gemini <-> Sagittarius
Cancer <-> Capricorn
Leo <-> Aquarius
Virgo <-> Pisces

In astronomy, the time it takes a planet to orbit the Sun is called its period.

The following table denotes the periods of the planets:

Mercury .24 years
Venus .62 years
Earth 1 year
Mars 1.88 years
Jupiter 11.86 years
Saturn 29.46 years
Uranus 84.07 years
Neptune 164.82 years
Pluto 247.92 years

The planets farthest from the sun move the slowest and can stay in one constellation for a long time.

The time it takes the Milky Way to move through the constellations is not an easy question. For the foreseeable future of humanity the Milky Way will be in Libra.

I also study the relationship of numbers themselves and how they connect with language. Does the word "One" mean anything different than the integer "1"? I wrote a program that assigned every letter a unique number, so that the letters added together in the word for any integer total up to the value of that same number. It wouldn't be hard to do this and assign the numbers to add up to a different than expected value:

Using the following encoding words for numbers are given a value for each letter that corresponds to the value of the entire word.

[E, F, G, H, I, L, N, O, R, S, T, U, V, W, X, Z]
[-2,-6, 0,-7, 7, 9, 2, 1, 4, 3,10, 5, 6,-9,-4,-3]

$$(\text{zero}) = (-3 + -2 + 4 + 1)$$

$$(\text{one}) = (1 + 2 + -2)$$

$$(\text{two}) = (10 + -9 + 1)$$

$$(\text{three}) = (10 + -7 + 4 + -2 + -2)$$

$$(\text{four}) = (-6 + 1 + 5 + 4)$$

$$(\text{five}) = (-6 + 7 + 6 + -2)$$

$$(\text{six}) = (3 + 7 + -4)$$

$$(\text{seven}) = (3 + -2 + 6 + -2 + 2)$$

$$(\text{eight}) = (-2 + 7 + 0 + -7 + 10)$$

$$(\text{nine}) = (2 + 7 + 2 + -2)$$

$$(\text{ten}) = (10 + -2 + 2)$$

Next to prove that we can actually use this system:

$$(10^{(2)})^3 = (10 + -2 + 2)^{(10 + -9 + 1)} * (10 + -7 + 4 + -2 + -2)$$

$$(10^{(2)})^3 = (10^2)^3$$

$$(10^{(2)})^3 = (100)^3$$

$$(10^{(2)})^3 = 300$$

I've also worked out a code for the english language to convert each letter of the alphabet to a key symbol in astrology.

A / Sun: ☉

B / Full Moon: ●

C / Waning Moon: ☾

D / Waxing Moon: ☽

E / New Moon: ○

F / Mercury: ☿

G / Venus: ♀

H / Earth: ☷

I / Mars: ♂

J / Jupiter: ♃

K / Saturn: ♄

L / Uranus: ♅

M / Neptune: ♆

N / Pluto: ♇

O / Aries: ♈

P / Taurus: ♉

Q / Gemini: ♊

R / Cancer: ♋

S / Leo: ♌

T / Virgo: ♍

U / Libra: ♎

V / Scorpio: ♏

W / Sagittarius: ♐

X / Capricorn: ♑

Y / Aquarius: ♒

Z / Pisces: ♓

I use this code to memorize things. Each symbol is a kind of memory "box" that I use to keep things I don't want to forget. This is a system for doing psychic readings with these boxes using word for word reading:

Sun - There is going to be a fresh start for you.

Mercury - You are entering a whole new period in your life.

Venus - And are ready to make some major changes.

Earth - You will reach your goals, and are moving in the right direction.

Mars - Once you decide on what you want you'll know how to get it.

Jupiter - Although it may not happen immediately.

Saturn - You need to look at the part you play in your relationships.

Uranus - And try to find ways of working with other people.

Neptune - There is a time coming in the future where you will need to depend on yourself.

Pluto - And you will be capable of doing that.

Aries - Take time to listen to your intuition.

Taurus - And your guides will be there.

Gemini - I see your life is coming into balance

Cancer - And things are falling back into place.

Leo - You will have to make some very hard decisions.

Virgo - But you know the right choices to make.

Libra - Try and put more time into your relationships.

Scorpio - And they will become stronger.

Sagittarius - You have the support of those closest to you.

Capricorn - So don't forget who's been there for you in the past

Aquarius - This is the perfect time to start something new.

Pisces - If you take things slow and plan ahead you will succeed.

Waxing Moon - Focus on your goals.

Waning Moon - And create your own future.

Full Moon - There is nothing you can't accomplish.

New Moon - Do you have any questions
